PROFILE

A passionate and motivated fresher with a strong grasp of Core Java,Spring Boot,and database management ,eager to apply my skills in a challenging software development role and contribute to organizational success.

PROFESSIONAL EXPERIENCE

Data analytics and visualization, Whiteklay Technologies Pvt Ltd   03/2023 – 12/2023 | Pune, india

· Focused on data analytics and visualization, leveraging   platforms such as Apache Superset to build and enhance   internal dashboards.
· Successfully built and implemented over four interactive dashboards for internal tools using Apache Superset, improving data accessibility and decision-making processes.
· Worked with databases including PostgreSQL and My SQL , optimizing data retrieval and management.
· Actively contributed to key projects:
· VDA Project: Created a comprehensive dashboard, enhancing visibility into key performance metrics.
· Star Project: Developed a detailed dashboard from a Figma design, ensuring accurate representation and functionality.
·Played a pivotal role in customizing the Keycloak login page using Docker for the VDA project, improving user authentication processes. The internship significantly enhanced skills in data analytics, visualization, and database management, leading to a 20% improvement in data reporting efficiency.
